

## **CHILD PASSENGER RESTRAINT SYSTEMS**

- WHEREAS, The Missouri Congress of Parents and Teachers is concerned with the physical well being and safety of infants and toddlers in moving motor vehicles; and
- WHEREAS, We believe it to be the responsibility of the owners or operators of motor vehicles in which children are transported to provide for the safety of these children; and
- WHEREAS, Approved child/passenger restraint systems should be provided for all children transported; therefore, be it
- RESOLVED, That the Missouri Congress of Parents and Teachers, its units and councils assume leadership in educating families in the use of all types of effective child/passenger restraint systems in vehicles in which infants and toddlers are transported and urge the passage of legislation to mandate the use of such equipment.
